Professional Summary

Senior Software Engineer with 7+ years of experience building backend and distributed systems for global SaaS products. Experienced in system design, microservices, Node.js, TypeScript, .NET, Python, PostgreSQL, Kafka and AWS, with a strong focus on technical ownership, mentoring and AI-assisted engineering.

Areas of Expertise

- Frontend Engineering
 - Distributed Systems
- Backend Engineering
 - API Design & Integrations
- System Design
 - AI Workflow Automation
- Software Architecture
 - Technical Leadership

Technical Proficiencies

Languages:	TypeScript, JavaScript, C#, Python
Backend:	Node.js, Express.js, NestJS, .NET, FastAPI
Frontend:	Angular, React, HTML, CSS, jQuery
Databases:	PostgreSQL, MongoDB, Redis, SQL Server, MySQL
APIs:	REST, GraphQL, gRPC
Messaging:	Kafka, RabbitMQ, Oban
Cloud & Infrastructure:	AWS, Azure, Docker, Terraform, GitHub Actions
Architecture:	Monolith, Distributed Systems, Microservices, CQRS, Event-Driven Architecture
AI Engineering:	OpenAI Codex, Claude Code, OpenCode, GitHub Copilot, Ollama, Reusable agents and workflow automation

Professional Experience

Software Engineer | Backend, Fresha, Prishtina

Dec 2025 to Present

- Delivered an end-to-end tax-compliance integration for Spain’s Basque Country, covering XML generation, API submissions, error handling and automated retries.
- Designed and implemented an ECDSA P-256 transaction-signing engine and immutable event ledger supporting compliance with French NF525 anti-VAT-fraud requirements.
- Improved a multi-jurisdiction tax-calculation engine supporting complex tax rules, helping reduce operational costs and improve calculation reliability.
- Built reusable AI agents using Codex, Claude Code and OpenCode to automate engineering workflows and support other team members.

Core technologies:

Elixir, Ruby, Node.js, NestJS, React, PostgreSQL, Redis, Kafka, gRPC, AWS, Terraform, Argo CD

Senior Software Engineer | Team Lead, Radix, Prishtina

May 2024 to Dec 2025

Software Engineer | Full Stack, Radix, Prishtina

Nov 2021 to May 2024

- Promoted to Senior Software Engineer and led a team of four engineers, contributing to architecture, technical planning and delivery.
- Built a dependency-free JavaScript library used across frontend and backend services, reducing maintenance overhead and improving consistency.
- Improved feature performance by up to 90% through internal redesigns and query-processing optimisations.
- Scaled systems to handle increased load while reducing resource usage.
- Helped design and introduce a new microservices architecture using Node.js, GraphQL, MongoDB, PostgreSQL, Redis and RabbitMQ.
- Mentored engineers in Node.js, GraphQL and Redis and provided technical guidance through design and code reviews.
- Mentored and trained software engineering interns, teaching programming fundamentals, backend development, software design patterns, testing practices, and clean-code principles through practical projects and code reviews.

Full Stack Developer, Inovativi, Prishtina

Feb 2021 to Nov 2021

- Developed data-processing web applications and REST APIs using ASP.NET Core, JavaScript and Microsoft SQL Server.
- Delivered cross-platform features across frontend, backend and database layers.

Junior Full Stack Developer, Inovativi, Prishtina

Sept 2018 to Sept 2020

Developed and maintained e-commerce applications using JavaScript, React, PHP, Laravel and ASP.NET Core.

Student Ambassador, Universum College, Prishtina

Oct 2019 to Jan 2020

Tutored a group of 30 freshmen and taught them the fundamentals of programming with Python 3

Co-Founder & Full Stack Developer, Bejdicka, Prishtina

Dec 2017 to May 2019

- Co-founded and developed a web platform using JavaScript, PHP and MySQL.

Education

Universum College, Prishtina

Bachelor of Computer Science, Oct 2018 to Jul 2021

Erasmus+ Exchange Semester, Antalya Bilim University

High School of Maths, Prishtina

High School Degree, Sept 2015 to May 2018

Languages

Albanian: Native, English: Professional working proficiency

Hobbies

CrossFit, Investing, Mathematics
